

MML01

Architect-designed luxury lever handle

On this lever handle, London-based and Paris-born architect Michel Mossessian has used a similar device to Ludwig Wittgenstein. There is an implicit acknowledgement of the different natures of the two sides of a door but also of the contrasting modes of operation of the handle itself. According to whether it is the push or pull side, the expression of a kink in the folded metal expresses the nature of the operation, in either convexity or concavity. Like all izé luxury door hardware, the lever handle is available in the full range of izé materials.

Length : 190 mm

Projection : 62 mm

Rose : 50 x 50 mm

Finish : Available in all izé finishes
