

DKA04

Luxury architect-designed desk light

David Kohn, one of UK architecture's rising stars, was inspired by historic gas-powered street lamps to inspire his GAS series of lights. The frosting on the glass bell obscures the light source so that the glow gives a mysterious ethereal hue. It becomes something pleasurable and playful much like the flame from a candle. The desk light makes it possible to bring this idea to the client's desk.

length : 160

Optional specifications : glass diameter: 60 mm

Finish : antique bronze, chrome
