TWK01

Luxury door knob by leading industrial designer
The Eccentric Door Knob typifies the elegant approach of highly respected industrial designer Terence Woodgate. It has an element of surprise when operating: unlike any other knob it is not centred on the lock but placed asymmetrically so that its action appears somewhere between that of a lever and that of a knob. This incongruity of combining the simplicity of form with the complexity of motion makes it a unique and delightful object.

Projection : 50 mm

Optional specifications : knob diameter: 50 mm patent number:
GB2452109

Finish : available in a variety of materials
