

## recessed bathroom set / Walter Gropius

**izé**

### WGT02

Architect-designed archetypal modernist bathroom set  
Walter Gropius designed this bathroom set as a companion to his lever handle, first put into mass production in 1923, and the most influential of all modernist door handles. The turn uses the same formal language and machine aesthetic. Like all izé luxury door hardware, the bathroom set is available in the full range of izé materials.

**Optional specifications** : diameter: 80 mm
