

IRT01

This bathroom turn is part of a suite of designs by architect Ian Ritchie that use the same elegantly stripped-down approach as his consummately skilled architectural and engineering projects. It matches the lever handle on backplate for the greatest possible consistency. Like all the elements in the suite, it is executed in stainless steel, a material he has done much to develop and articulate.

width : 13

length : 60

Projection : 21 mm

Optional specifications : backplate dimensions: 50 x 128 mm

Finish : Satin stainless steel and polished stainless steel
