

cylinder thumb turn on square backplate by Walter Gropius

izé

WGT05

Architect-designed archetypal modernist thumb turn
Walter Gropius designed this thumb turn as a companion to his lever handle, first put into mass production in 1923, and the most influential of all modernist door handles. The turn uses the same formal language and machine aesthetic. Like all izé luxury door hardware, the thumb turn is available in the full range of izé materials.
