

# La Tourette door handle on square rose by Le Corbusier

izé

## LTL02

The La Tourette handle, based on one used by Le Corbusier at the Dominican priory of Sainte Marie de La Tourette (and on other of his projects), has a solid, simple but satisfying action. The design dimensions are as the original for the lever bar the main difference is the operation: supplied with round (LTL01) or rectangular(LTL02) shaped roses and decorative domed head bolts. Ideal for workshops, studios or any dwelling bringing the industrial feel and look to the spaces.

**Width** : 130 mm

**Rose dimension** : 45 mm x 60 mm

**Projection** : 60 mm

**Finishes** : Available in most izé finishes
