

door knob by 6a Architects

izé

6AK05

Following the success of its door knob originally designed for the Raven Row gallery, 6A Architects created this door knob using the same rough cast texture. It is an indication of the way in which the architects use building elements to embody memories and a history of use whilst appearing new and surprising. Like all izé luxury door hardware, the knob is available in the full range of izé materials.

Knob diameter : 60 mm

Projection : 70 mm

Rose diameter : 40 mm

Rose thickness : 5 mm

Finish : Available in all izé finishes
